# ANNUAL REPORT

— OF THE —

## Superintending School Committee,

FOR THE YEAR ENDING

*MARCH 1st, 1881.*

---

DISTRICT No. 1. The two terms of school enjoyed by this district have been of unusual interest and profit. The first was taught by Miss Etta M. King, a young, but *live* teacher, and the second by Miss C. M. Perkins, who has had much experience and always does good work.

DISTRICT No. 4. Has been taught, throughout its three terms, by Miss Flora E. Newton. Her continuance through the year speaks for itself of good satisfaction given.

DISTRICT No. 5. This district has worried through the three terms of another year, changing teachers each term. First came Miss Clara E. Williams, next Mr. Chas. G. Ward, and last Mr. Arthur P. Greeley. At the close of each term, those who had continued through, showed signs of good progress. Perhaps more better not be said, only I would recommend my successor to license no one for that school, but who has had experience and success.

DISTRICT No. 6. This school has enjoyed three quiet terms, under Mrs. J. L. McCrae and Miss Rosella Perry.

DISTRICT No. 7. Here two terms have been taught with usual acceptance by Miss Rosella Perry. The last under Miss E. L. Walker, was of ordinary interest. Nos. 6 and 7 are always orderly and quiet.

DISTRICT No. 8. Here they have had three terms under the same teacher, Miss Juliette A. Osgood, and no one of our district schools has enjoyed more faithful earnest services, or made, all things considered, better progress.

DISTRICT No. 9. The first term here was taught by Miss Nora Allen, and was not wholly satisfactory. The last two, under Miss Eva Fuller, have been more successful, and, considering the interruption by sickness, has been all that could be expected or desired.

DISTRICT No. 10. Miss Jennie S. Lyons, teacher. School small, and in a private house.

DISTRICT No. 11. This school is somewhat backward, and especially needs a better supply of books. Miss Sadie Corbin taught the first term, and the second is still in progress under Miss Mary A. Miller.

DISTRICT No. 13. They have employed here throughout the year, Mrs. John Brown. The school went quietly, for the most part, but a change in teachers would be desirable for another term.

DISTRICT No. 14. This school still continues its advance, and has had two very pleasant terms. The first was under their old teacher, Miss Jennie N. Putnam, the second under Mr. Louis J. Quimby. This was Mr. Q.'s first term, but it was certainly a promising one.

In concluding my report, in regard to the town schools, I would say, I have not presented facts so fully as I should, had it been possible to get all the registers together for the year. A number of schools, at the time of writing, are still keeping.

I would call the attention of the parents to the fact that the revised list of text-books has not yet been fully furnished by them, and that by withholding these they are retarding the best rate of progress. No committee wishes

to enforce the law upon such a subject to its fullest extent, and ought not to be put in a place where he will be obliged to, to rightly discharge his duty.

I would also call the attention of all who have anything to do with hiring and paying teachers, to the General Statutes, Chap. 81, Sec. 6 and 15.

“No person shall be *employed* or *paid* for services as a teacher, unless he shall produce and deliver to the prudential committee a certificate of the school committee of the town in which the district where the school is to be kept is, or is deemed to be, that he is well qualified to instruct youth in the branches to be taught in such schools.”

“Every teacher, at the close of his school and at the end of each term thereof, SHALL make a return of such register or record to the school committee of the town, who shall give to him a certificate thereof; and NO TEACHER shall receive payment for his services until such certificate is produced and delivered to the prudential committee.”

The first requirement has not been fully met, and the second has been ignored altogether. This matter should be known and attended to by all our prudential committees.

### *Village Schools.*

DISTRICTS 2 & 3. In these the same corps of teachers has been employed that served so efficiently the last year. They are now well known by all, and their work will bear inspection at all times.

A few from out of the village have attended our High School, and there is a general hope, on the part of the teacher and those who have the supervision of the work, that their numbers may be increased. The time has come, in our opinion, when this should become a town school, and it is our firm belief that this would be a mutual benefit to *all*.

During the year teacher's meetings have been attended with interest by all the teachers and committees, and no effort has been spared by those you have chosen as your servants to not only hold our own, but *advance* the interests of education. If these meetings could become a stated *town* matter, it could not fail to do good.

It is the verdict of your committee that never were your schools in better order or doing more thorough work.
